Art Unit: 1626

Receipt is acknowledged of the information disclosure statements filed November 24, 2003 and August 2, 2004, which have been entered in the file.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Variable R which appears in the definition of X and W is not defined.

When X or W is C, the valence of the carbon is not satisfied because there are only two things bonded to the carbon instead of four.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1626

Claims 1 to 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Castelhana et al. (Database Caplus on STN, Accession Number 1999:783937, 1999), cited by applicants.

The reference discloses the claimed compound wherein R_1 and R_2 are methyl, R_3 is phenyl, Y is C=O, R_4 is methyl and R_5 is H. Note Registry Number 251946-53-9.

Claims 25 to 40 are allowed.

The references made of record and not relied upon show the state of the art.
